Date	Activity	Type	Who? Target audiences	Why? Objective / project output	Status
May 2025	Webinar on the Hydrogen Game with Greenskills4H2 and HAcademyEU	Collaboration with EU-funded projects	Research communities; Innovators; Specific end user communities	Collaborate with the Green Skills for Hydrogen and HyAcademy projects on demos, trainings, and audiovisual materials for the Bulgarian	Delivered
August 2025	EFCH2 2025	Conferences	Industry; Business partners; Innovators; International organisations; Investors; Research	Present H2START and electrolyzer review, networking and knowledge exchange with European researchers.	Delivered
Sep 2025	Master Class: Advanced Data Analysis in Electrochemical Impedance	Education and training events	Research communities; Innovators; Industry; Business partners	Deliver advanced technical training, advance knowledge in the Bulgarian scientific community and present H2START expertise in	Delivered
Oct 2025	World Hydrogen Technologies Convention	Conferences	Research communities, EU institutions, Other, Industry	Presented work on production of biological hydrogen; knowledge exchange; second prize for best poster	Delivered
2025	Collaboration Hydrogen Game	Education and training events	Research communities; Other; Specific end user communities	Demonstrated a hydrogen education tool for training, awareness and stakeholder learning.	Delivered
Oct 2025	H2START workshop on the Hydrogen Game	Education and training events	Research communities; Other; Specific end user communities	Hosted a workshop using the Hydrogen Game to transfer knowledge on hydrogen systems and applications.	Delivered
Nov 2025	European Sociological Association Conference	Conferences	Research communities	Discuss social aspects related to hydrogen deployment in Europe; knowledge exchange	Delivered
Feb 2026	H2START study on regional hydrogen economy presented at SISEC 2026	Conferences	Research communities; Innovators; Industry; Business partners	Presented H2START stakeholder engagement / regional hydrogen economy findings to a scientific and innovation audience; knowledge exchange	Delivered
March	Advanced Materials and Green Energy Conference	Conferences	Research communities	Presented work on PEM-PV electrolysis and hydrogen communities; knowledge exchange	Delivered
April 2026	Prague Hydrogen Days	Conferences	Research communities, EU Instritutions	Presented work on hydrogen communities; knowledge exchange	Delivered
May 2026	Photosynthesis and Hydrogen Energy Research for Sustainability	Conferences	Research communities	Presesnted work on green/biological hydrogen; knowledge exchange	Delivered
May 2026	Hydrogen for Clean Energy and Mobility Workshop	Conferences	Industry; Business partners; Innovators; International organisations; Investors; Research	International forum presenting hydrogen technologies and the future of clean power and mobility	Delivered
June 2026	Green Transition Forum 2026	Conferences	Industry; Business partners; Innovators; EU/national/regional/local authorities; Investors; Research	Presented H2START and contributed to hydrogen policy/roadmap discussion in a major transition forum	Delivered
June 2026	H2START SRIA Webinar	Other scientific collaboration	Industry; Business partners; Innovators; International organisations; Investors; Research	Presented H2START CoE state of the art and SRIA content to relevant stakeholders for input and co-assessment	Delivered
June 2025	Forum on New Materials	Conferences	Research communities	Present work and exchange knowledge on new material research related to hydrogen technologies	Delivered
